What is toki pona? What is sitelen pona?

toki pona is a constructed language with a vocabulary of just over 120 words. It was created by Sonja Lang in 2001 and as of late 2022, has over two thousand speakers. I've included the most essential words here that are not grammatical particles.

sitelen pona is the most used writing system for toki pona besides the latin alphabet. It's a logography, so each word gets one symbol. It's helpful to learn toki pona and sitelen pona at the same time, which is what this resource is for!
